PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience in building **secure, scalable, and high-performance cross-platform mobile applications**, including **banking and enterprise-grade solutions**. Proficient in **Flutter, Dart, REST API integration, and secure authentication mechanisms**. Experienced in delivering production-ready applications using **clean architecture, reusable UI components, structured API services, and robust error handling**. Currently working on **Indian Overseas Bank (IOB)** applications under vendor engagement.

WORK EXPERIENCE

Refulgence Inc Pvt Ltd – Flutter Developer

Dec 2025 – Present

(Vendor for Indian Overseas Bank – Central Office)

- Working as a Flutter Developer on **banking and enterprise-grade mobile applications** for Indian Overseas Bank (IOB).
- Developing and maintaining **secure Flutter applications** aligned with banking compliance and security standards.
- Implementing **secure REST API integrations** using Dio with token-based authentication and encrypted request/response handling.
- Developing API service layers including **OAuth token generation, request signing, and encrypted payload processing**.
- Collaborating with backend and security teams to implement **HMAC, RSA, and AES encryption workflows**.
- Designing **reusable Flutter UI components** following **clean architecture and Provider-based state management**.
- Debugging and resolving production issues related to **API failures, authentication errors, and performance bottlenecks**.
- Ensuring high code quality, scalability, and maintainability suitable for **enterprise banking environments**.

Gateway Software Solutions – Flutter Developer

Nov 2024 – Dec 2025

- Developed and deployed **Flutter-based cross-platform applications** for Android, iOS, and desktop platforms.
- Specialized in **Flutter architecture, state management, and REST API integration**.
- Participated in complete development lifecycle including **UI design, development, testing, and deployment**.
- Delivered **production-ready Flutter applications** with clean, scalable, and maintainable code.
- Improved application performance through **optimized widget rendering and structured code organization**.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering.
Sri Ranganathar Institute of Engineering and Technology.

2021 – 2025 | Coimbatore
CGPA: 7.8

TECHNOLOGY STACK

CATEGORY	SKILLS
Programming / Framework	Dart, Flutter
Platforms	Android, iOS, Web, Windows, macOS
API & Networking	REST APIs, Dio, HTTP, JSON
Security & Authentication	Token-based Authentication, OAuth, Encrypted APIs
Databases & Storage	Firestore, Firebase Storage, SQLite
Authentication Services	Firebase Authentication, Google Sign-In
State Management	Provider
Tools & Version Control	Android Studio, VS Code, Git, GitHub
Development Practices	Clean Architecture, Reusable UI, Debugging, Performance Optimization
